

# Medicart Drawers Standard & Small

The new generation of Medicart Drawers Standard and Small is assembled according to a new concept. In total, the medication cart has 13 positions (13P). This results in a standard height of the worktop of approximately 105 cm, which is **ergonomically** recommended.

The Medicart Drawers Standard can also be filled with medication bins on trays.

The smaller dimensions of the Medicart Drawers Small make this medication trolley extremely maneuverable and user-friendly for distribution of medication in the room. It is sufficient to provide the modules with the necessary dividers to separate the doses per patient.

The cart can be completely tailored to your needs, thanks to the combination of different drawer heights and the selection of accessories.

## » Range of colours

To personalise your Medicarts you can choose the colour of the drawers for the Medicart Standard (a mix of colours is possible). There is a choice of 4 standard colours, other colours are available on request.

For the Medicart Small, the drawer fronts are grey as standard. All other colours are available on request.

Grey

Mamba green

Atoll blue

Red

Zinc yellow\*

Navy blue\*

\* Also for Medicart Standard only on request. Colours on request usually have a higher cost price and longer delivery time.

## » Content

The 13 drawer positions can be filled according to your own needs with drawers for baskets 50, 100 and 200 mm high, an extendable worktop in the upper position and for the Standard version medication bins on trays.

## » Runners

The runners are equipped with a **soft-closing system**. The drawer slows down as it closes and is then slowly pulled shut. The runners are enclosed in the drawer frame so they are invisible, resulting in a sleek design, which also prevents contact with grime or grease which leads to **better hygiene**. **The drawer is 105% extendable** which makes it easy to remove the trays from the frame.

## » Handles

The drawers have **aluminum-look** handles that can be easily cleaned and disinfected thanks to the rounded corners. The handles are **ergonomic** and have a **lacquered finish** which is soft to the touch.

## » Medicart Drawers Standard - Height calculation

1P		Drawer for a 50 mm module 	
		Extendable worktop	
2P		Drawer for a 100 mm module 	Drawer for medication bins 
		Drawer for a 100 mm module 	Drawer for medication bins (with extra space)
