

## Thermo-insulation set for Medibox

The thermo-insulation set is the ideal solution for the safe and reliable transport of temperature-sensitive products such as medication and vaccines. The insulation set maintains a temperature between 2 and 8 ° C for at least 12 hours and reduces the risk of damage or waste. 3 cold packs ensure easy handling and the coating prevents the products from freezing.

The thermo-insulation sets are perfectly suited for the Medibox MBD43271 (300 x 400 x 290 mm) and MBD64271 (600 x 400 x 290 mm). You can purchase them separately to supplement the Mediboxes you already have in use or as a whole including the insulation set and the Medibox.

The easy-to-handle thermo-insulation set ensures safe and reliable transport of products that are temperature sensitive.

### » Keep cold

3 Icecatch® Solid Insulated cold packs guarantee easy handling. The insulating coating ensures that the products do not freeze.

### » Easy to clean

The inlay is made of PS for easy cleaning. It can also be cleaned in washing machines up to 60°C.

### » Insulating

The Neopor® filling has a high insulation capacity.
